#### Trout Pond To Stay At State Fair, But Prizes Are Barred

LANSING (AP)—An agreement operated at the State Fair so long as prizes are not offered, today had approval of Deputy Atty. Gen. Arthur T. Iverson.

The approved contract spells out that no prizes may be offered, presumably because this would be in violation of Michigan antigambling laws.

Under the contract between the operators of the pond and the state, patrons will be charged 50 cents for 12 minutes of fishing. But they won't even get to keep the trout. The contract requires that they be returned to the pond.

So said Wallace Garneau, professor of speech at Western Michigan College of Education at Kalamazoo, while speaking this morning at the Escanaba preschool conference.

The problems of today require development of a creative and critical mind, as Otto Yntema pointed out yesterday, and it is also important that students earn to communicate—to be able lo say and write what they think, ne emphasized.

#### Communicate Meaning

"A teacher's first responsibility is to be a good communicator,' Professor Garneau noted. He stressed that teachers should evoid "talking down" to students, should keep their voices in a ow, natural register and should make meanings clear.

There is little "carry-over" speech and someday "I hope Press Photo) speech teachers can help youngsters". Garneau observed. It is have youngsters "talk to someone" while reading, so that the Past Year Presented material is read as it would be spoken, he stated.

HIGH TRAFFIC-Summertime brings the highest traffic count on Upper Peninsula highways, so the State Highway Departments traffic volume figures of last December are not too accurate a gauge of today's traffic conditions.

We pass the December 1952 figures along, however, to show that the route between Escanaba and Gladstone is not the most heavily traveled in Northern Michigan as we had previously believed.

Traffic count figures, showing the number of vehicles for a 24-hour period, were as follows:

Between Escanaba and Gladstone -4,150; between Norway and Iron Mountain-4,570; between Bessemer and Ironwood-5,250. For the sake of public information if

nothing more it would be good policy for the Highway Department to have traffic count figures available for the summer season as well as wintertime. If the figures for the Escanaba-Gladstone route were known, we believe they would show an enormous traffic increase over last season.

HOT PEDESTRIANS-The recent heat wave that sent the mercury soaring to new highs in the Escanaba area created somewhat of a problem for the clerks in shops and business places.

But they stayed on the job no matter how hot the weather, although the downown concrete and brick absorbed and held the heat from one day to the next. Despite the heat the Ludington Street pedestrians kept their tempers cool by eating ice cream and drinking cokes and

comparing their heat prostration symp-"Gee," said one Escanaba businessman, panting his way into a neighboring office. I'm so hot I'm beginning to talk with a Southern accent!"

COLD BABY-In connection with the neat wave is the amusing incident that occurred last week when Mr. and Mrs. Tom McManus were visiting Mrs. McManus' parents, Mr. and Mrs. William Moore, 1010

Ninth Ave. S. Mrs. McManus, the former Dawn Moore, and her husband came to Escanaba from Florida where they have lived for the past year or so. There the temperature during the day was often over 100 degrees and at night dropped to a "cool" 85.

Here in Escanaba the McManuses and heir infant daughter found the hot weather of Northern Michigan actually cool by comparison and they took to wearing sweaters. When Mrs. Moore wanted to take her granddaughter out for an airing, the

father objected. "Oh, I don't think you should take her out in this cold weather," he protested. Assured that the baby would be well bund-

led, he still was doubtful. "You know," he said, "the cold air might get up her nostrils. One of my aunt's took her baby out once in the cold

and the baby got pneumonia." But Mrs. Moore took the baby out anyway, assuring her son-in-law that people don't keep babics inside all the time just ecause they live in Northern Michigan.

Note: The McManuses left Escanaba for of all places in hot weather-Oakland, Calif., where they will make their home.

# It's good to be missed

Now that Schlitz is again available everywhere, orders are pouring in at an unheard of rate. No such flood of orders has ever been seen in the history of this or any other brewery.

Absence has made the heart grow fonder. Based on the orders on hand for Schlitz, the most popular beer in history is destined to become even more popular than ever.

The power behind these orders is the pent-up demand of the American people for the brand they know and like best—a beer so fine it made a city famous.

This is the public's response to Schlitz quality after ten long weeks of absence. It's good to know you've been missed.

The reason is that Schlitz has given more satisfaction to more people than any other beer in the world.

Needless to say, The Beer that Made Milwaukee Famous will continue to meet the high standards you yourself have set for the finest beer obtainable.

Schlitz takes this opportunity to thank our millions and millions of friends, our wholesalers and dealers.

There's no doubt about it-if you like beer, you'll love Schlitz America's largest selling beer.

# **Burns Fatal To** Robert Vallier

Robert Vallier, 28, former Perkins resident of West DePere, Wis., died today at 9:10 a. m. at St. Francis Hospital. He had suffered second degree burns which covered 60 to 70 percent of his body in an explosion in the basement of his farm at Trombly Saturday evening, when he lit a match to light his cigarette.

The death of Robert Vallier is the third violent death to occur in the family. Two of his brothers also suffered mishaps. Julius Vallier was killed during World War II in the Philippine Islands in 1945, and Joseph Vallier was killed in an auto accident near Rapid River a few months following his brother's tragic death.

Mr. Vallier was born Dec. 28, 1924, at Perkins. He attended Perkins schools and lived in Perkins all his life until last fall when he accepted a position as a foundry worker in West DePere, Wis. He was married to Mrs. Vallier on December 1948 at West DePere. He was a member of St. Joseph's Church at Perkins. While living at Perkins, Mr. Vallier had been employed as a trucker.

Besides his wife, Mary, he is survived by his mother, Mrs. Adele Vallier of Perkins, four brothers, Louis, Ernest, Albert and of the summer, reached 95.6 de-Gilbert, all at home, and two sis- grees, S. # Six Nuns Quit Public School

JOHNSBURG, Ill. A single teacher will register students Wednesday at the eight - room Johnsburg Public School, staffed last year by six Roman Catholic

The school became the focal point of a church-state controversy after a Lutheran housewife charged in a suit it was a parochial school perated with public funds.

Enrollment in the elementary school is expected to drop sharply this year because the nuns are setting up a separate parochial school in Johnsburg, a predominantly Catholic community.

The public school last year had 194 pupils, including 152 Catholics. Most of the Catholics and some who are not are expected to follow the nuns to the parochial school, which will open Sept. 9.

Mrs. Dorothy Larson, 31, filed suit April 10 asking the McHenry County Circuit Court to close the Johnsburg Public School on grounds it violated constitutional guarantees of separation of church and state.

The woman, whose two children attended the school, claimed they were discriminated against because they were not Catholics.

In answering the suit, which will be heard Thursday by Judge Bernard Decker, the nuns denied the charges, adding that if the conditions ever existed, "they no longer exist" because the nuns had resigned their public teaching posts at the end of the school year last

Following the mass resignation, the Johnsburg school board hired one lay teacher to staff the public school, erected three years ago at Maj. Gen. S. E. Sturgis Jr., a cost of \$183,000.

The original Johnsburg Public and pupils were transferred to a parochial school. When the new public school was built in 1950, nuns and pupils transferred to it.

The four-member international board, highest appeals court for the U. N. staff, held that for an employe to invoke the U.S. Fifth Amendment in refusing to answer such questions does not violate any U. N. staff rules.

But the tribunal upheld the firing of nine others—seven involved in Communist inquiries and two for non-political reasons-because they were "temporary-indefinite" employes whom the U. N. secretary general could dismiss if he thought such action was in the interests of the international organization.

But that's just what was proved when that question was put to 2.100 high school girls, recently. The charm queens admitted they just couldn't get along without a radio. After that they'd pack plenty of clothes (to impress an albatross, no doubt). Then boys were considered-15, 16 and 17-year-olds offered the lads third place in their ark. Older girls rated boys just about seventh in importance for the voyage, crowding out their would-be Romeos with books, cos-

metics and magazines. The questionnaire was prepared by a workshop in Group Dynamics at the Frankford Branch of the Philadelphia YWCA-in conjunction with planned programs for 25. The workshop tried to determine what students did with their leisure time, too, querying the girls on their after-supper pastimes during the week, and their week-

end activities. It developed that dancing is still a teen-ager's favorite form of fun. Swimming, skating and other outdoor sports are second and third choices. Sewing appeals to young teens but older girls prefer reading ing when at home. Radio and television get attention after supper. Weekends a different routine is

in progress for the majority. Saturspent 311 days shaving-mostly day mornings and afternoons are spent being Mom's little helper.

The program, sponsored by the for the second time in the stock an official stated. Escanaba Racing Association, is expected to draw a field of 24 stock cars. All profits from the races will be donated to the benefit fund. The Fair board and racing employes are also donating their share of the gate.

A good advance sale of tickets indicates a large crowd for the races tonight. There will be no other races held this week. The Association announced today that Saturday's regular racing date has been cancelled.

The quarter-mile dirt track at the Fair is in good condition and fast races are expected. Officials said last Saturday night's program

# Bigger Liquor **Board Proposed**

increase the State Liquor Control Commission to five members is under study by a House committee studying liquor laws.

The proposal was made by Harold M. Kinder, commission business manager, in behalf of the commission.

Under the proposal the jobs of the two \$6,000 a year hearing examiners would be abolished. Their functions would be turned over to the two new commissioners who would also have power to act.

The examiners now have to reman commission in full before any action can be taken. The process is needlessly slow and wasteful, Kinder said.

Kinder also asked that the committee consider easing the regumittee consider easing the regulations governing package liquor Attacker Sets (SDD) and package beer and wine (SDM) dealers.
